

# What do owls eat?

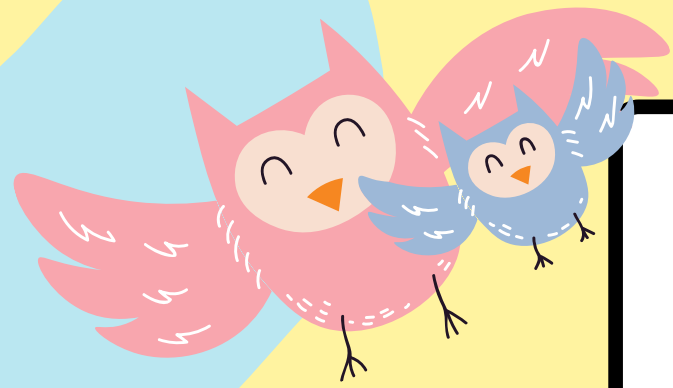

Grade 1 Science  
By: Ms. Stewart

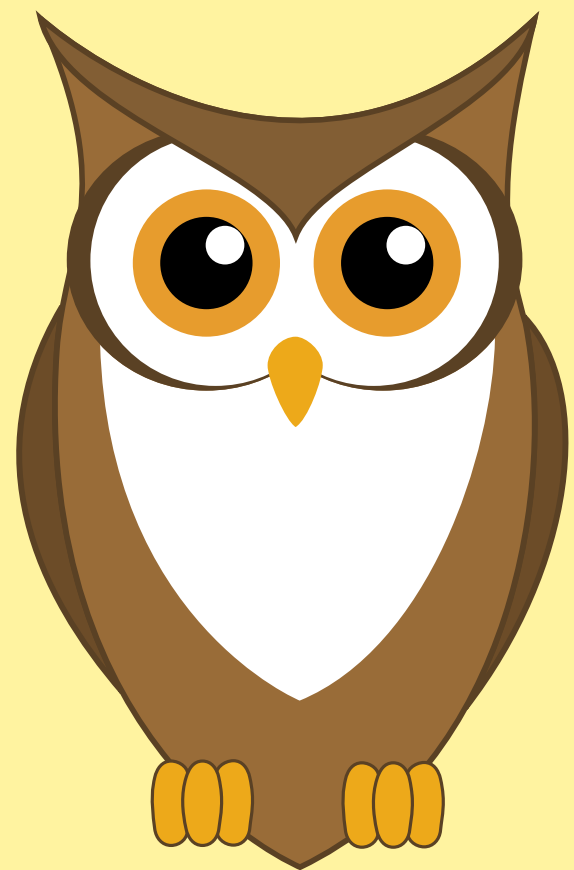

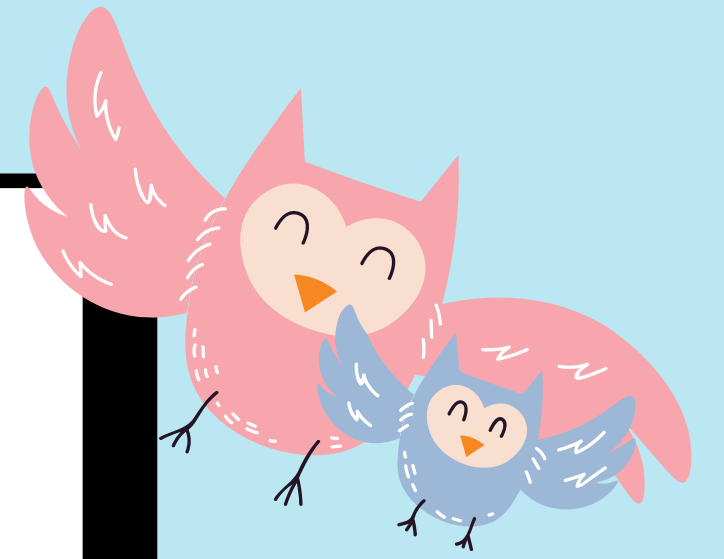

Barn Owl

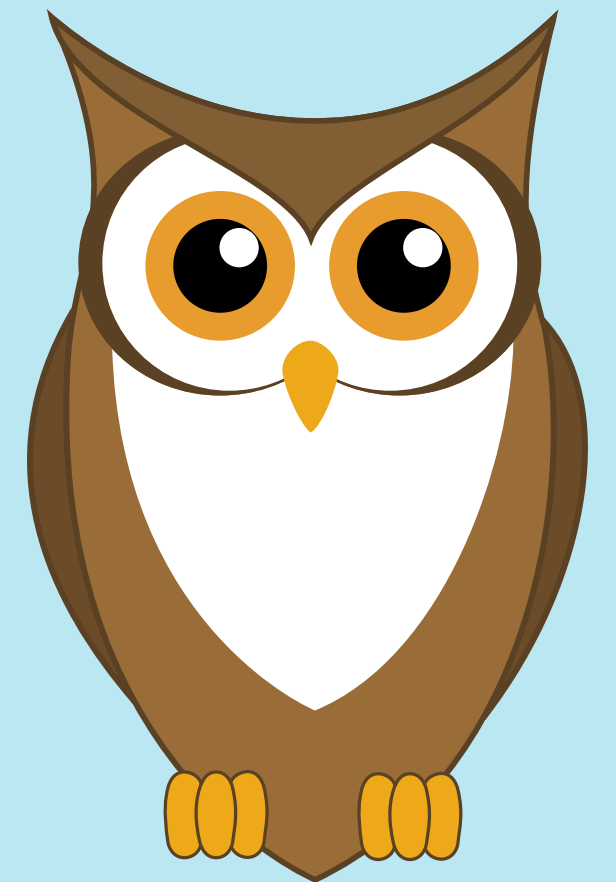

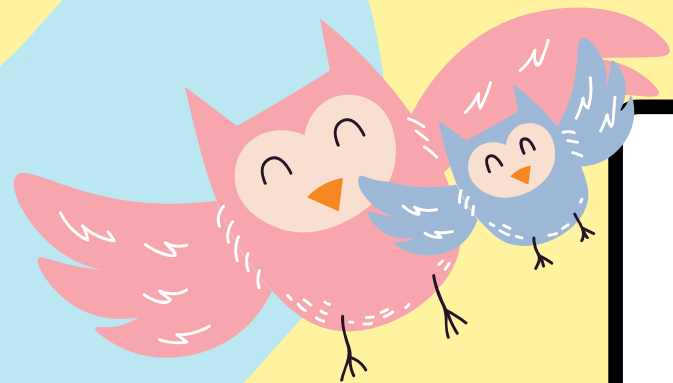

Snowy Owl

Great Horned Owl

Great Grey Owl

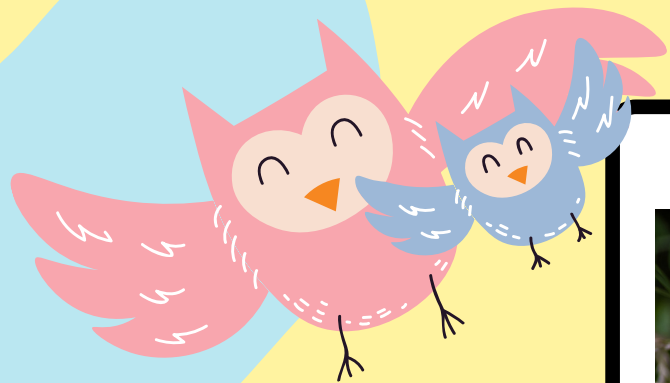

# Nocturnal Animals

Some owls hunt at night.

Mice

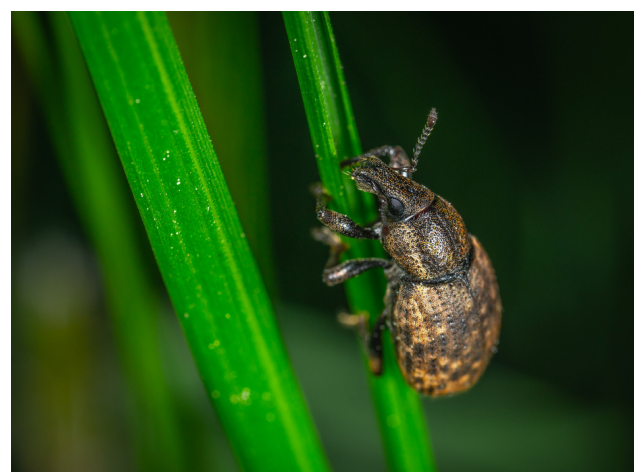

Shrew

Mole

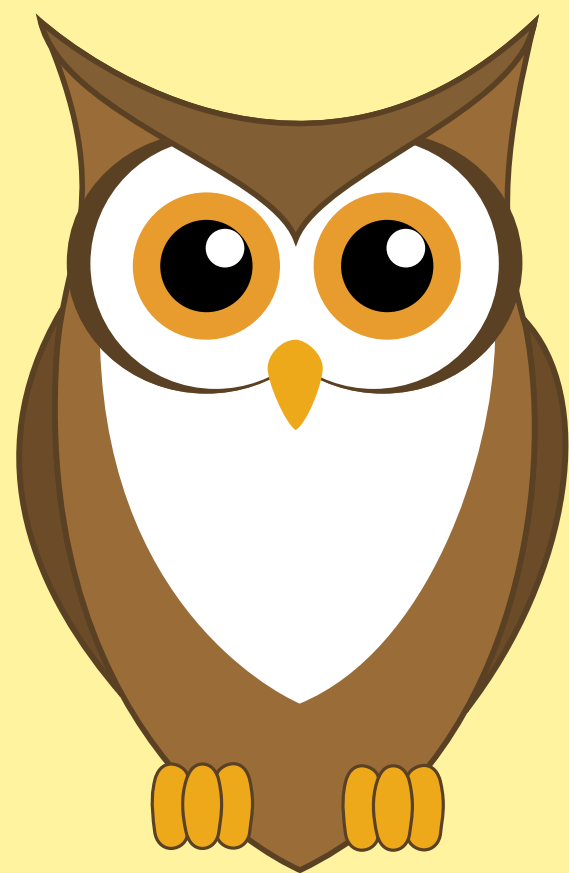

Bird

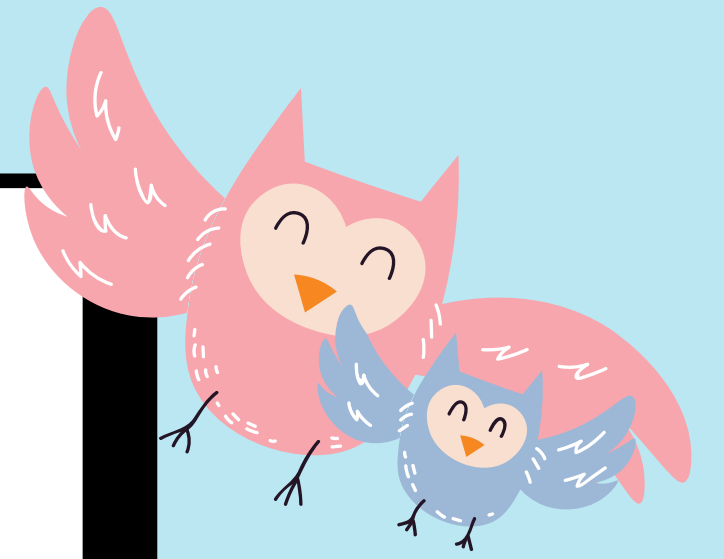

Insects

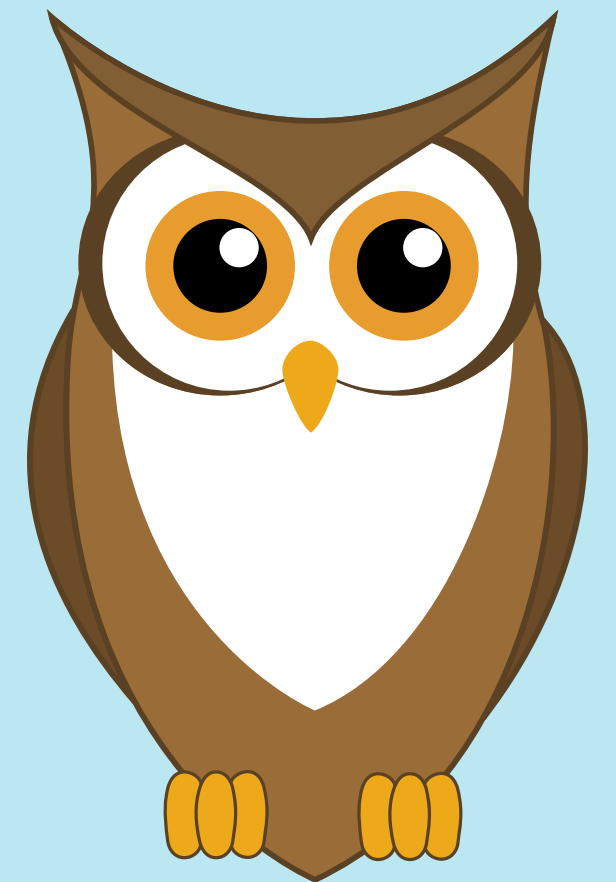

Rodents

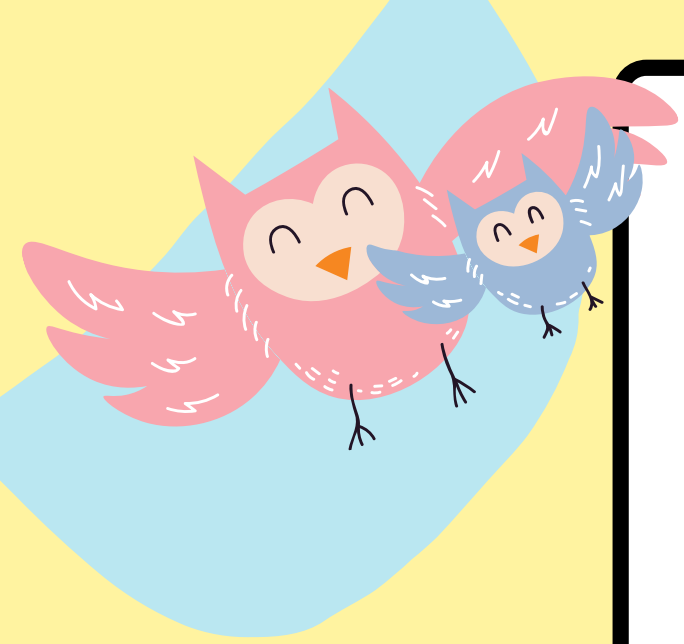

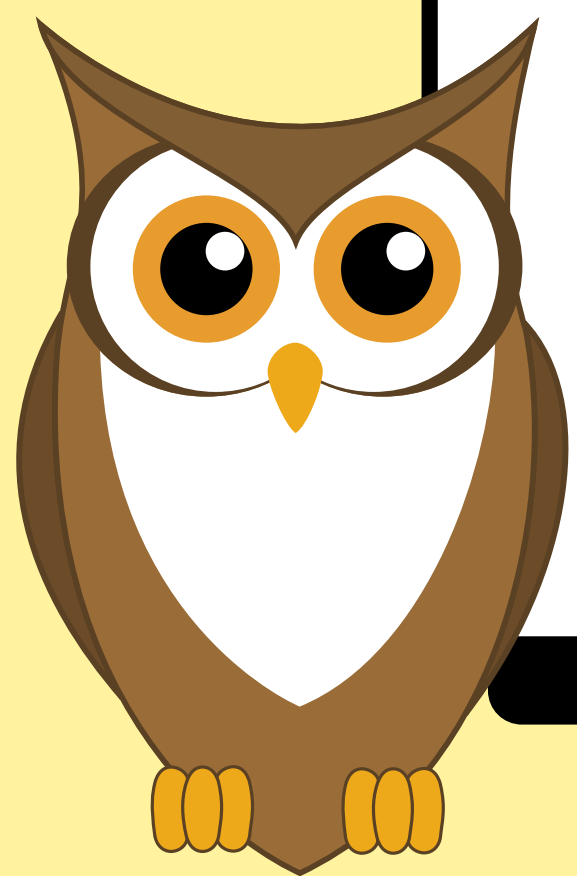

Like birds, owl beaks do not have any teeth.  
Owls swallow their food whole!

Owls can not digest the bones, hair and fur from their prey.

Owls get rid of the parts they can not digest, this is called an Owl Pellet.
